

ACRYCOURT

Synthetic Acrylic Sports Flooring

ACRYCOURT is a Synthetic sports flooring surface blended from 100% pure Elastomeric Acrylic Vinyl resin which is eco friendly and designed in such manner that it provides friction to the player without hindering the movement. It can be laid for both exterior and Interior (option of rubberized) application. There are various grades based on the film thickness, rubber inclusion and the desired cushion effect. We can offer the coatings in 8 colours as indicated below.
